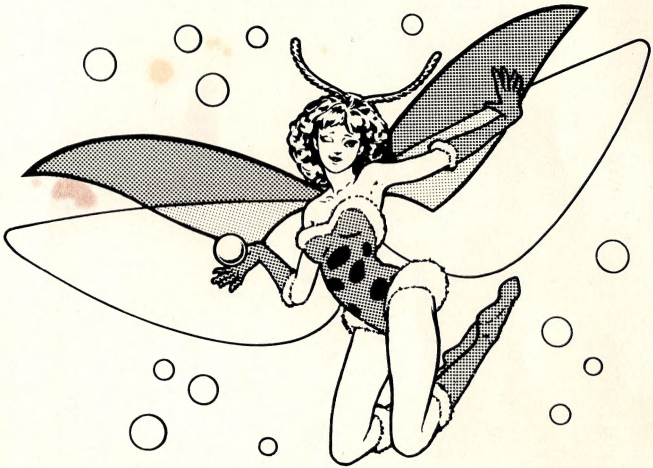
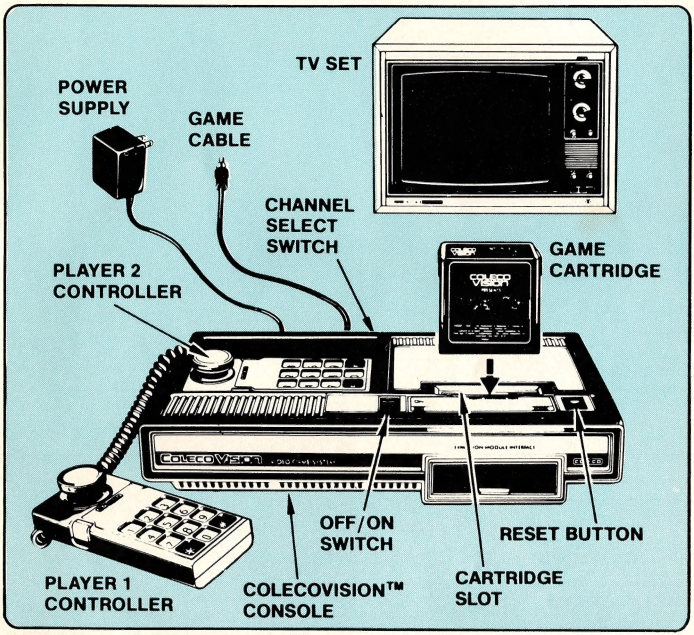
GAME DESCRIPTION



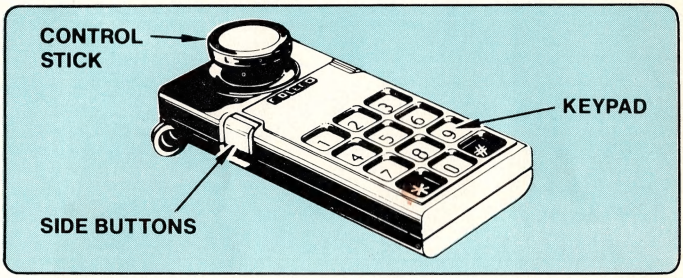
Based on the exciting Universal arcade game, ColecoVision™ LADY BUG™ features a fast-paced adventure. Use strategy to steer your Lady Bug™ through a maze, dodging hungry predatory insects. Use turnstiles to change the maze and block their pursuit! Lady Bug™ gathers points and bonuses by eating dots, hearts and vegetables and by spelling words. But avoid the deadly skulls! How many points can you rack up before moving on to faster action?

GETTING READY TO PLAY



- Make sure the COLECOVISION™ console is connected to a TV and the power supply is plugged into your console. Then plug power supply into a 110/120 volt AC outlet.
- TV should be on and tuned to the same channel as the Channel Select Switch on the console.
- To play one-player LADY BUG™, use the controller plugged into Port 1 (the rear jack). To play two-player LADY BUG™, use both controllers.
- **ALWAYS MAKE SURE COLECOVISION™ UNIT IS OFF BEFORE REMOVING OR INSERTING A CARTRIDGE.** Turn **Off/On** Switch to **On** after cartridge is inserted.

USING YOUR CONTROLLERS



NOTE: For a one-player game, use the controller plugged into Port 1. For a two-player game, Player 1 uses the controller plugged into Port 1; Player 2 uses the controller plugged into Port 2.

How To Use Keypad Buttons and Control Stick for LADY BUG™

1. **Keypad:** Keypad Buttons 1-8 allow you to select a Game Option before beginning to play. Pressing * after a game allows you to replay the same Game Option; pressing # after a game allows you to return to the Game Option screen.

2. **Control Stick:** Pushing the Control Stick in any of four directions (up, down, left or right) causes Lady Bug™ to move in the direction selected.

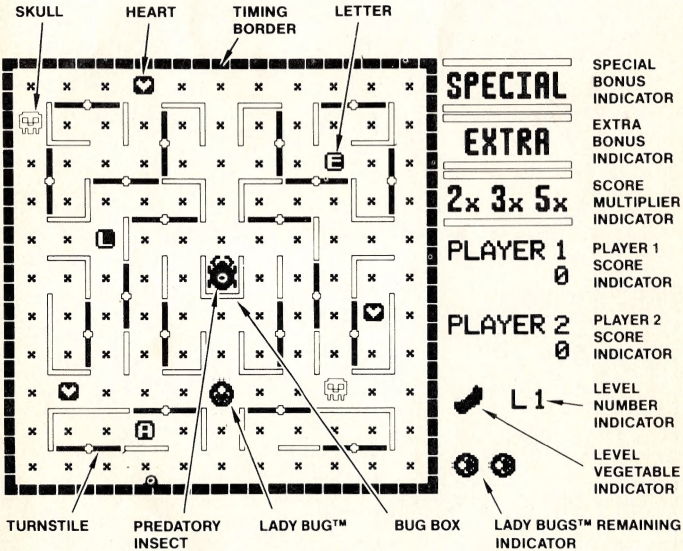
NOTE: The Side Buttons are not used for LADY BUG™

HERE'S HOW TO PLAY

NOTE: If you are playing a two-player game, players take turns. Player 1 goes first, and each turn lasts until the player's Lady Bug™ is eliminated.

STEP 1: The choice is yours.

Press the Reset Button. The title screen for LADY BUG™ appears on your TV. Wait for the Game Option screen to appear. It contains a list of game play options, numbered 1-8. Select one by pressing the corresponding number button on either controller keypad.



STEP 2: Getting around the maze.

Move your Lady Bug™ through the maze, eating dots as she goes. Avoid running into skulls!

STEP 3: Dodge predatory insects!

Each time the timing border changes color, a new dangerous insect begins to hunt down your Lady Bug™. To dodge it, steer her through turnstiles that only she can move. But be

quick or the insect will take advantage of the open turnstile and follow through right after her.

STEP 4: Earn extra points and bonuses.

Have Lady Bug™ eat hearts, letters and vegetables. Hearts and letters appear in the regular maze screen. Vegetables appear in both the regular maze screen and the Vegetable Harvest Bonus screen. Read **Bonus Scoring** for special hints on racking up high scores! The game ends when all your Lady Bugs™ have been eliminated.

Press * to replay the LADY BUG™ Game Option that you have been playing. Or press # to go back to the Game Option screen.

NOTE: The Reset Button on the console "clears" the computer. It can be used to start a new game at any time, and can also be used in the event of game malfunction.
